**Environmental, Social and Governance (ESG) Policy for Suppliers,  
Contactors, Consultants and Transporters**

J.K. Cement Ltd believes that responsible approach towards employees, suppliers, contactors, transporters and local communities, the Environment and Society is an essential of its Success.

J.K. Cement believes that responsible ownership and business success go hand in hand and, as such, J.K. Cement has embedded consideration of ESG factors across all the stages of business.

J.K. Cement is fundamentally committed to building long-term, sustainable businesses, which will grow, provide employment and generate economic benefit in an environmentally and socially responsible manner.

J.K. Cement aims to engage those stakeholders that take a responsible approach towards the environment, society and corporate governance.

J.K. Cement is implementing Environmental, Social and Governance (ESG) factors and your organization is our business partner, it is mandatory that you shall implement and promote the following ESG compliances with both in letter and the spirit of the law, wherever it applies and submit the acceptance before commencement of the activity at our site.

**Environmental**

- Ensure to take a responsible approach and recognize the potential impacts of the businesses/activities on the environment, workers, communities and society, as well as the potential impact on climate change by the business in which the J.K. Cement Ltd operates.
- Act responsibly with respect to the environment, aiming for a sustainable approach to the use of resources, energy and avoiding irresponsible disposal of waste/hazardous waste/hazardous products.
- You should be very judicial while using the sources of water and never pollute them. You should take only that much of water which you can drink and if taps are open you should close them immediately to reduce the wastage of water.
- Your vehicle should be maintained and timely serviced regularly as per the manufacturers specifications and should have valid PUC and noise level under control.
- You should have a formal environmental policy which includes a commitment to legal compliances, continuous improvement in environmental performance and ensure the clean, green and safe work environment.

A handwritten signature in blue ink, appearing to be 'A. K. Singh', is written over the bottom of the list.
