To,  
The Director (M),  
Ministry of Environment, Forest & Climate Change,  
Indira Paryavaran Bhawan,  
JOR Bagh Road, Aliganj,  
New Delhi-110003

Sub: Environmental Clearance Compliance report of Limestone Mine- Khinya-II (A) Block (ML area 304.0 ha.) Village: Khinya, Tehsil: Shri Mohangarh, District: Jaisalmer, Rajasthan of M/s. J.K. Cement Limited for the period from October-2023 to March- 2024.

Ref.: EC letter no. F. No. IA-J-11015/77/2021-IA-II (NCM) dated 11.07.2022

Dear Sir,

Kindly refer to the above subject matter and refer EC letter no., please find attached herewith compliance of EC for the period of **October-2023 to March- 2024**. We would like to inform you that project activities have not started till date.

As per MoEF & CC notification no. S.O. 5845 (E) 26.11.2018 the soft copy of same has been sent through email to [iro.jaipur-mefcc@gov.in](mailto:iro.jaipur-mefcc@gov.in), [moef@nic.in](mailto:moef@nic.in), [ccb.cpcb@nic.in](mailto:ccb.cpcb@nic.in), [member-secretary@rpcb.nic.in](mailto:member-secretary@rpcb.nic.in), [cpcb.bhopal@gov.in](mailto:cpcb.bhopal@gov.in), [monitoring-ec@nic.in](mailto:monitoring-ec@nic.in); [rorpcb.jai@gmail.com](mailto:rorpcb.jai@gmail.com).

We hope that compliance is in order.

Thanking you.

Yours Faithfully

For M/s J. K. Cement Limited

**Manish Toshniwal**  
Authorized Signatory  
Encl: As above.

Limestone Mine- Khinya-II (A) Block of M/s J.K. Cement Limited Six-Monthly Compliance Report			
<b>Proposal Details</b>			
Proposal No.	IA/RJ/MIN/234184/2021	Project Name	Limestone Mine- Khinya-II (A) Block with total excavation of 6.04 million TPA including 5.50 million TPA ROM (Cement grade 5.40 million TPA and SMS grade 0.10 million TPA); 0.28 million TPA Inter-burden and 0.26 million TPA Alluvial (Aeolian sand)/Top soil along with Installation of one mobile crusher of 50 TPH and 1500 TPH Crushers with vibrating screen in the Mining lease area of 304.0 ha located in the Village: Khinya, Tehsil: Shri Mohangarh, District: Jaisalmer, Rajasthan of M/s. J.K. Cement Limited.
Category	A	MoEF File No.	F. No. IA-J-11015/77/2021-IA-II (NCM) dated 11.07.2022
Name of the Entity / Corporate Office*	J K Cement Ltd, Kamla Tower, Kanpur 208001 (U.P.) India		
Entity's PAN*	AABCJ0355R1Z7		
Entity Name as per PAN	J K CEMENT LIMITED.		
<b>Compliance Letter/Report</b>			
Reporting Year*	2024	Reporting Period*	October-2023 to March-2024
Remarks (if any)	Submitting herewith the Six Monthly EC Compliance Report for the period: October-2023 to March-2024 for Proposed Limestone Mine- Khinya-II (A) Block with total excavation of 6.04 million TPA including 5.50 million TPA ROM (Cement grade 5.40 million TPA and SMS grade 0.10 million TPA); 0.28 million TPA Inter-burden and 0.26 million TPA Alluvial (Aeolian sand)/Top soil along with Installation of one mobile crusher of 50 TPH and 1500 TPH Crushers with vibrating screen in the Mining lease area of 304.0 ha located in the Village: Khinya, Tehsil: Shri Mohangarh, District: Jaisalmer, Rajasthan of M/s. J.K. Cement Limited.		
<b>Details of Production and Project Area</b>			
Date of Commencement of Project /Activity: *	Project not yet commissioned	Project Area as Per EC Granted (In Case of Mine Lease): *	304 ha.
Actual Project Area (In Case of Mine Lease): *			
<b>PRODUCTION CAPACITY</b>			
Name of the Product*	Units*	As per EC granted*	Production during last financial year*
Cement Grade Limestone	Million TPA	5.4	Project not yet commissioned

SMS Limestone	Grade	Million TPA	0.10	Project not yet commissioned
Inter-burden		Million TPA	0.28	Project not yet commissioned
Alluvial sand/ Top Soil		Million TPA	0.26	Project not yet commissioned
<b>Total Excavation</b>		<b>Million TPA</b>	<b>6.04</b>	Project not yet commissioned
One Mobile Crusher		TPH	50	Project not yet commissioned
Crusher with vibrating screen		TPH	1500	Project not yet commissioned

**Limestone Mine- Khinya-II (A) Block**

**Village: Khinya, Tehsil: Shri Mohangarh, District: Jaisalmer, Rajasthan of M/s. J.K. Cement Limited.**

**EC Compliance Report**

**Limestone Mine- Khinya-II (A) Block with total excavation of 6.04 million TPA including 5.50 million TPA ROM (Cement grade 5.40 million TPA and SMS grade 0.10 million TPA); 0.28 million TPA Inter-burden and 0.26 million TPA Alluvial (Aeolian sand)/Top soil along with Installation of one mobile crusher of 50 TPH and 1500 TPH Crushers with vibrating screen in the Mining lease area of 304.0 ha located in the Village: Khinya, Tehsil: Shri Mohangarh, District: Jaisalmer, Rajasthan of M/s. **A. SPECIFIC CONDITION: -**

Sr. No	Condition Type	Condition Details	Self - Declaration	Remarks / Reason
1.	Miscellaneous	The Project Proponent should install the Continuous Ambient Air Quality Monitoring Station in such numbers as per the scientific study and in consultation with CPCB.	Yet to be complied	Agreed and noted for compliance. Project activities yet not started. Continuous Ambient Air Quality Monitoring Station will be installed before start of production.
2.	Miscellaneous	The Mine Lease area includes 95.72 ha of private land which belongs to 45 families. The Project Proponent has submitted a package of Rs 8.095 crore towards compensation for the agricultural land. The EAC quoting the policy of LARR of Government of India advised the Project Proponent to ensure that each land losing family buys alternate land with the compensation amount. The compensation may only be disbursed at the time when these families are making an agreement for land purchase. The Project Proponent shall submit the progressive as well as final settlement details of R&R to IRO along with the compliance report every 6 months.	Yet to be complied	Project activities yet not started. As suggested by the Expert Appraisal Committee members, to explore the possibilities to ensure that the landowner should explore the alternative land at nearby premises and the money for purchase of that alternative land should be transferred by the company directly to the seller. In this regard, we have already requested in ADS reply that we will try our best to implement the suggested model of land purchase, but it will depend on the landowner requirement

				which could be purchase of alternative land, construction of house or to meet the other expenses. However, we will convince them and will purchase the land according to the landowner acceptance.
3.	Miscellaneous	The Plantation in the public places which has been proposed by PP should include 50% fruit bearing trees which can become additional source of income for the local. The PP should ensure that the fruit trees are not planted along the roadside.	Yet to be complied	Agreed and noted for compliance. Project activities yet not started.
4.	Statutory Compliance	At no stage of mining operation, the Grazing land will be diverted. A barrier between the mining zone and grazing land should be kept and boundary plantation to be taken up by the Project Proponent. Furthermore, the project proponent shall undertake development of grazing land in consultation with Villagers through re-grassing, drip irrigation and there should be an open access for all.	Yet to be complied	<ul style="list-style-type: none"> <li>➤ Agreed &amp; Will be complied.</li> <li>➤ Project activities yet not started.</li> <li>➤ 43.03 ha is Grazing land which is existing in the mining lease area.</li> <li>➤ Grazing land will not be disturbed in the present proposal as per the Approved Mining Plan.</li> <li>➤ Safety barriers will be left along the grazing land, and it will be covered by plantation.</li> <li>➤ Barbed fencing will be done surrounding the grazing land.</li> <li>➤ Water holes will be provided in grazing land.</li> <li>➤ Development of plantation and re-grassing to improve the grazing land.</li> <li>➤ Two sides accessibility will be given.</li> </ul> <p>However, the permission for mining in Grazing Land will be taken from State Govt and mining plan will be modified for and after approval from IBM and shall be informed to the Ministry immediately for mineral conservation.</p>
5.	Statutory Compliance	The Grazing land also should be protected by 50 m safety zone, access to the grazing land	Yet to be complied	Agreed and noted for compliance. Project activities yet not started.

		and its maintenance will be also done by PP in consultation with Villagers.		Please refer above condition reply.
6.	Statutory Compliance	The Project Proponent should clearly indicate whether the existing road will be used for mining if minerals are found beneath. If mineral is found, a conceptual plan should be submitted by the PP clearly indicating the diversion of the existing road before initiating the Mining.	Yet to be complied	Agreed and noted for compliance. Project activities yet not started.
7.	Statutory Compliance	Since the progressive mining is proposed in 3 <sup>rd</sup> year PP will have to follow the guideline for protecting the commuters from the impacts of drilling and blasting. 50 m buffer zone on either side should be created to protect the commuters during 1 <sup>st</sup> five-year plan.	Yet to be complied	Agreed and noted for compliance. Project activities yet not started.
8.	Statutory Compliance	The Project Proponent to Install Continuous Ambient Air Quality Monitoring Station near the impact zone. PP shall also undertake water quality monitoring, Noise monitoring, vibration monitoring at the lease boundary and in the nearby villages.	Yet to be complied	Agreed and noted for compliance. Project activities yet not started. Installation of CAAQMS and monitoring of water quality, Noise and vibration will be done at the lease boundary and in the nearby villages after start of mines operation.
9.	Human Health Environment	The Project Proponent should periodically monitor and maintain the health records of the mine workers digitally prior to mining operations, at the time of operation of mine and post mining operations. Regular surveillance on silicosis shall be carried through regular Occupational health check up every year for mine workers. PP shall also organize medical camp for the benefit of the local people and also the monitor the health impacts due to mining activity.	Yet to be complied	Agreed and noted for compliance. Project activities yet not started. Occupational health check - up every year for mine workers, digital record keeping prior to mining operations, at the time of operation of mine and post mining operations and organizing of medical camp will be done after start of mines operations.
10.	Water Quality monitoring and preservation	The Project Proponent shall continue to monitor the water quality of the stream/Nallah with specific reference to Langelier Saturation Index to assess the impact of calcium carbonate on water quality.	Yet to be complied	Agreed and noted for compliance. Project activities yet not started.
11.	Energy Conservation Measures	The Project Proponent should explore the possibility for shifting to clean energy using electric equipment for cleaner production option to reduce the emission generated from various machineries.	Yet to be complied	Agreed and noted for compliance. Project activities yet not started.
12.	Statutory Compliance	The Project Proponent shall strictly follow the mitigation measures provided in MoEF&CC Office Memorandum No. Z-	Yet to be complied	Agreed and noted for compliance.

		11013/57/2014-IA.II(M), dated 29 <sup>th</sup> October, 2014.		Project activities yet not started.
<b>B.</b>	<b>STANDARD CONDITIONS FOR MINING OF MINERAL:</b>			
<b>I.</b>	<b>Statutory compliance</b>			
1)	Statutory compliance	This Environmental Clearances (EC) is subject to orders / judgement of Hon'ble Supreme Court of India, Hon'ble High Court, Hon'ble NGT and any other Court of Law, Common Cause Conditions as may be applicable.	Complied	Agreed and noted for compliance. Project activities yet not started.
2)	Statutory compliance	The Project proponent complies with all the statutory requirements and judgement of Hon'ble Supreme Court dated 2 <sup>nd</sup> August, 2017 in Writ Petition (Civil) No. 114 of 2014 in matter of Common Cause versus Union of India & Ors before commencing the mining operations.	Complied	Noted and Agreed. This is a greenfield project and Project activities yet not started.
3)	Statutory compliance	The State Government concerned shall ensure that mining operation shall not be commenced till the entire compensation levied, if any, for illegal mining paid by the Project Proponent through their respective Department of Mining & Geology in strict compliance of Judgment of Hon'ble Supreme Court dated 2 <sup>nd</sup> August, 2017 in Writ Petition (Civil) No. 114 of 2014 in matter of Common Cause versus Union of India & Ors.	Complied	This is a greenfield project and Project activities yet not started.
4)	Statutory compliance	This Environmental Clearance shall become operational only after receiving formal NBWL Clearance from MoEF&CC subsequent to the recommendations of the Standing Committee of National Board for Wildlife, if applicable to the Project.	Not Applicable	Not Applicable
5)	Statutory compliance	This Environmental Clearance shall become operational only after receiving formal Forest Clearance (FC) under the provision of Forest Conservation Act, 1980, if applicable to the Project.	Complied	No Forest Land NOC has been obtained from DCF dated 13.08.2021 and There is no National Park, Wildlife Sanctuary, Biosphere Reserves, Tiger Reserves, and Wildlife Corridors, Reserved/Protected Forest etc. within 10 km radius of the mining lease area. Authenticated location map has been obtained from DCF, Jaisalmer vide letter no F()DCF/Technical/2021-22/177 dated 12.01.2022.

				<b>Copy of the same in enclosed as Annexure-1</b>
6)	Statutory compliance	Project Proponent (PP) shall obtain Consent to Operate after grant of EC and effectively implement all the conditions stipulated therein. The Mining activity shall not commence prior to obtaining Consent to Establish/ Consent to Operate from the concerned State Pollution Control Board/Committee.	Yet to be complied	Complied with. Consent to operate has been obtained for SPCB vide letter no F(Mines)/Jaisalmer(Mohang arh)/10(1)/2022-2023/3651-3655 dated 31.08.2023 valid upto 31.07.2028 . <b>Copy of the same in enclosed as Annexure-2.</b>
7)	Statutory compliance	The PP shall adhere to the provision of the Mines Act, 1952, Mines and Mineral (Development & Regulation), Act, 2015 and rules & regulation made there under. PP should adhere various circulars issued by Director General Mines Safety (DGMS) and Indian Bureau of Mines time to time.	Complied	Agreed and noted for compliance.
8)	Statutory compliance	The Project Proponent shall obtain consents from all the concerned landowners, before start of Mining operations, as per the provisions of MMDR Act, 1957 and rules made there under in respect of lands which are not owned by it.	Complied	Agreed and noted for compliance. Project activities yet not started.
9)	Statutory compliance	The Project Proponent shall follow the mitigation measures provided in MoEFCC's Office Memorandum No. Z-11013/57/2014-IA.II (M), dated 29th October, 2014, titled "Impact of mining activities on Habitations-Issues related to the mining Projects wherein Habitations and Villages are the part of mine lease areas or Habitations and villages are surrounded by the mine lease area."	Yet to be complied	The company assures that the mitigation measures provided in MoEF & CC's Office Memorandum No.: Z-11013/57/2014-IA.II (M), dated 29 <sup>th</sup> October, 2014, titled "Impact of mining activities on Habitations-Issues related to the mining Projects wherein Habitations and villages are the part of mine lease areas or Habitations and villages are surrounded by the mine lease area" will be followed by the company.
10)	Statutory compliance	The Project Proponent shall obtain necessary prior permission of the competent authorities for drawl of requisite quantity of surface water and from CGWA for withdrawal of ground water for the project.	Complied	Agreed and noted for compliance. Project activities yet not started. Permission for allocation of water from Indira Gandhi Canal has been obtained from Indira Gandhi Nahar Department, Department of Water

				Resources, Govt of Rajasthan vide letter no F. 6(3) IGNB/2021 dated 04.03.2022. <b>Copy of the same is enclosed as Annexure-3</b>
11)	Statutory compliance	A copy of EC letter will be marked to concerned Panchayat / local NGO etc. if any, from whom suggestion / representation has been received while processing the proposal.	Complied	EC letter has been submitted to concerned Panchayat vide letter No.: JSL/PROJ/03 dated 16.07.2022.
12)	Statutory compliance	State Pollution Control Board / Committee shall be responsible for display of this EC letter at it's Regional office, District Industries Centre and Collector's office / Tehsildar's Office for 30 days.	Complied	Agreed & Noted.
13)	Statutory compliance	The Project Authorities should widely advertise about the grant of this EC letter by printing the same in at least two local newspapers, one of which shall be in vernacular language of the concerned area. The advertisement shall be done within 7 days of the issue of the clearance letter mentioning that the instant project has been accorded EC and copy of the EC letter is available with the State Pollution Control Board/Committee and website of the Ministry of Environment, Forest and Climate Change (www.parivesh.nic.in). A copy of the advertisement may be forwarded to the concerned MoEFCC Regional Office for compliance and record.	Complied	The advertisement about the grant of EC letter for the project has been published in two local newspapers namely Dainik Bhaskar & Rajasthan Patrika dt. 14.07.2022 and copy of the same already send on 06.08.2022. <b>Copy of the same is enclosed as Annexure-4.</b>
14)	Statutory compliance	The Project Proponent shall inform the MoEF&CC for any change in ownership of the mining lease. In case there is any change in ownership or mining lease is transferred. PP needs to apply for transfer of EC as per provisions of the para 11 of EIA Notification, 2006 as amended from time to time.	Complied	Agreed and will be complied if applicable in future.
<b>II. Air quality monitoring and preservation</b>				
15)	Air Quality Monitoring and Preservation	The Project Proponent shall install a minimum of 3 (three) online Ambient Air Quality Monitoring Stations with 1 (one) in upwind and 2 (two) in downwind direction based on long term climatological data about wind direction such that an angle of 120° is made between the monitoring locations to monitor critical parameters, relevant for mining operations, of air pollution viz. PM10,	Yet to be complied	Agreed and noted for compliance. Project activities yet not started.

		PM2.5, NO2, CO and SO2 etc. as per the methodology mentioned in NAAQS Notification No. B-29016/20/90/PCI/I dated 18.11.2009 covering the aspects of transportation and use of heavy machinery in the impact zone. The ambient air quality shall also be monitored at prominent places like office buildings, canteen etc. as per the site condition to ascertain the exposure characteristics at specific places. The above data shall be digitally displayed within 03 months in front of the main Gate of the mine site.		
16)	Air Quality Monitoring and Preservation	Effective safeguard measures for prevention of dust generation and subsequent suppression (like regular water sprinkling, metalled road construction etc.) shall be carried out in areas prone to air pollution wherein high levels of PM10 and PM2.5 are evident such as haul road, loading and unloading point and transfer points. The Fugitive dust emissions from all sources shall be regularly controlled by installation of required equipment's/ machineries and preventive maintenance. The use of suitable water-soluble chemical dust suppressing agents may be explored for better effectiveness of dust control system. It shall be ensured that air pollution level conform to the standards prescribed by the MoEFCC/ Central Pollution Control Board	Yet to be complied	Noted, once project will be started all measure to be taken to control the fugitive emission.
<b>III.</b>	<b>Water quality monitoring and preservation</b>			
17)	Water Quality Monitoring and Preservation	In case, immediate mining scheme envisages intersection of ground water table, then Environmental Clearance shall become operational only after receiving formal clearance from CGWA. In case mining operation involves intersection of ground water table at a later stage, then PP shall ensure that prior approval from CGWA and MoEFCC is in place before such mining operations. The permission for intersection of ground water table shall essentially be based on detailed hydro-geological study of the area.	Complied	Agreed and will be complied if applicable in future.
18)	Water Quality Monitoring and Preservation	Regular Monitoring of the flow rate of the springs and perennial nallahs flowing in and around the mine lease shall be carried out and record maintain. The natural water bodies and or streams which are flowing in around the village should not be disturbed. The water table should be the nurtured so as	Yet to be complied	Agreed and noted for compliance. Project activities yet not started.

		not to go down below the pre- mining period. In case of any water scarcity in the area, the project proponent has to provide water to the villages for their use. A provision for regular mounting and water table in open dug wall located in village should be incorporated to ascertain the impact of mining over ground water table. The report on changes in groundwater level and quality should be submitted on a six-monthly basis to the Regional office, CGWA and State Ground Water Department/ State Pollution Control Board.		
19)	Water Quality Monitoring and Preservation	Project perpendicular shall regularly monitor and maintain records w.r.t groundwater level and quality in an around the mine lease by establishing a network of existing Wells as well as new piezo meter installations during the mining operation in consultation with Central Ground water authority /State Government Department . The report on changing in ground water level and quality shall be submitted on six-monthly basis to the Regional office, CGWA and State Ground Water Department/ State Pollution Control Board.	Yet to be complied	Agreed and noted for compliance. Project activities yet not started.
20)	Water Quality Monitoring and Preservation	The Project Proponent shall undertake regular monitoring of natural water course/ water resource/ springs and perennial nallahs existing/ flowing in and around the mine lease and maintain its records. The project proponent shall undertake regular monitor water quality of upstream and downstream of the water bodies passing within and nearby/ adjacent to the mine lease and maintain its record. Sufficient number of gullies shall be provided at appropriate places within the lease for management of water. PP shall carryout regular monitoring w.r.t. pH and included the same in monitoring plan. The parameters to be monitored shall include their water quality as vis-a vis suitability for usage as per CPCB criteria and flow rate. It shall be ensured that no obstruction and/ or alteration be made to water bodies during mining operations without justification and prior approval of MoEFCC. The monitoring water courses / bodies existing in lease area shall be carried out four time in a year viz. Pre monsoon (April-May), monsoon (August), post monsoon (November) and	Yet to be complied	Agreed and noted for compliance. Project activities yet not started.

		winter (January) and the record of monitored data may be sent regularly to Ministry of Environment, Forest and Climate Change and its regional office, Central Ground Water Authority and Regional Director, Central Ground Water Board, State Pollution Control Board and Central Pollution Control Board. Clearly showing the trend analysis on six monthly basis.		
21)	Water Quality Monitoring and Preservation	Quality of polluted water generated from mining operations which include Chemical Oxygen Demand (COD) in mines run-off; acid mine drainage and metal contamination in runoff shall be monitored along with Total Suspended Solids (TDS), Dissolved Oxygen (DO), pH and Total Suspended Solids (TSS). The monitored data shall be uploaded on the website of the company as well as displayed at the project site in public domain, on a display board, at a suitable location near the main gate of the Company. The circular No. "- 20012/1/2006-IA.11 (M) dated 27.05.2009 issued by Ministry of Environment, Forest and Climate Change may also be referred in this regard.	Yet to be complied	Agreed and noted for compliance. Project activities yet not started.
22)	Water Quality Monitoring and Preservation	Project Proponent shall plan, develop and implement rainwater harvesting measures on long term basis to augment ground water resources in the area in consultation with Central Ground Water Board/ State Groundwater Department. A report on amount of water recharged needs to be submitted to Regional Office MoEFCC annually.	Yet to be complied	Agreed and noted for compliance. Project activities yet not started.
23)	Water Quality Monitoring and Preservation	Industrial wastewater (workshop and wastewater from the mine) should be properly collected and treated so as to conform to the notified standards prescribed from time to time. The standards shall be prescribed through Consent to Operate (CTO) issued by concerned State Pollution Control Board (SPCB). The workshop effluent shall be treated after its initial passage through Oil and grease trap.	Yet to be complied	Agreed and noted for compliance. Project activities yet not started.
24)	Water Quality Monitoring and Preservation	The water balance/water auditing shall be carried out and measure for reducing the consumption of water shall be taken up and reported to the Regional Office of the MoEF&CC and State Pollution Control Board / Committee.	Yet to be complied	Agreed and will be complied after mine comes in operation.
<b>IV.</b>	<b>Noise and vibration monitoring and prevention</b>			

25)	Noise and vibration monitoring and prevention	The peak particle velocity at 500m distance or within the nearest habitation, whichever is closer shall be monitored periodically as per applicable DGMS guidelines	Yet to be complied	Agreed and noted for compliance. Project activities not yet started.
26)	Noise and vibration monitoring and prevention	The illumination and sound at night at project sites disturb the villages in respect of both human and animal population. Consequent sleeping disorders and stress may affect the health in the villages located close to mining operations. Habitations have a right for darkness and minimal noise levels at night. PPs must ensure that the biological clock of the villages is not disturbed; by orienting the floodlights/ masks away from the villagers and keeping the noise levels well within the prescribed limits for day /night hours	Yet to be complied	Agreed and noted for compliance. Project activities yet not started.
27)	Noise and vibration monitoring and prevention	The Project Proponent shall take measures for control of noise levels below 85 dBA in the work environment. The workers engaged in operations of HEMM, etc. should be provided with ear plugs /muffs. All personnel, including laborers working in dusty areas shall be provided with protective respiratory devices along with adequate training, awareness and information on safety and health aspects. The PP shall be held responsible in case it has been found that workers/ personals/ laborers are working without personal protective equipment.	Yet to be complied	Agreed and noted for compliance. Project activities yet not started.
<b>V.</b>	<b>Mining Plan</b>			
28)	Miscellaneous	The Project Proponent shall adhere to the working parameters of the mining plan which was submitted at the time of EC appraisal wherein year-wise plan was mentioned for total excavation i.e. quantum of mineral, waste, over burden, inter burden and topsoil etc. No change in basic mining proposal like mining technology, total excavation, mineral and waste production, lease area and scope of working (viz. method of mining, overburden & dump management, O.B. & dump mining, mineral transportation mode, ultimate depth of mining etc.) shall not be carried out without prior approval of the Ministry of Environment, Forest & Climate Change, which entail adverse environmental impacts, even if it is a part	Yet to be complied	Agreed and noted for compliance. Project activities yet not started.

		of approved mining plan modified after grant of EC or granted by State Govt. in the form to Short Term Permit (STP), Query license or any other name.		
29)	Miscellaneous	The Project Proponent shall get the Final Mine Closure Plan with Financial Assurance approved from Indian Bureau of Mines/ Department of Mining & Geology as required under the provision of the MMDR Act, 1957 and Rules/ Guideline made there under. A copy of approved final mine closure shall be submitted within 2 months of the approval of the same from competent authority to the concerned Regional Office of the Ministry of Environment, Forest & Climate Change for record and verification.	Complied	Agreed and will be complied whenever applicable in future.
30)	Miscellaneous	The land use of the mine lease area at various stages of the mining scheme as well as at the end-of-life shall be governed as per the approved Mining Plan. The excavation vis-a-vis backfilling in the mine lease area and corresponding afforestation to be raised in the reclaimed area shall be governed as per approved mining plan. PP shall ensure the monitoring and management of rehabilitated areas until the vegetation becomes self-sustaining. The compliance status shall be submitted half-yearly to the MoEFCC and its concerned Regional Office.	Yet to be complied	Project activities not yet started. The company assures that the mining operation will be executed strictly as per approved mining plan.
<b>VI.</b>	<b>Land Reclamation</b>			
31)	Miscellaneous	The Overburden (O.B.) generated during the mining operations shall be stacked at earmarked OB dump site(s) only and it should not be kept active for a long period of time. The physical parameters of the OB dump like height, width and angle of slope shall be governed as per the approved Mining Plan and as per the guidelines/circulars issued by D.G.M.S. w.r.t safety in mining operations shall be strictly adhered to maintain the stability of top soil/OB dumps. The topsoil shall be used for land reclamation and plantation.	Yet to be complied	Agreed and noted for compliance. Project activities yet not started.
32)	Miscellaneous	The reject/waste generated during the mining operations shall be stacked at earmarked waste dump (s) site only. The physical parameters of the waste dumps like height, width & angle of slope shall be	Yet to be complied	Agreed and noted for compliance. Project activities yet not started.

		governed as per the approved Mining Plan and as per the guidelines/circulars issued by D.G.M.S. w.r.t safety in mining operations shall be strictly adhered to maintain the stability of waste dumps.		
33)	Miscellaneous	The reclamation of waste dump sites shall be done in scientific manner as per the Approved Mining plan cum progressive Mine Closure plan.	Yet to be complied	Agreed and noted for compliance. Project activities not yet started.
34)	Miscellaneous	The slope of dumps shall be vegetated in scientific manner with suitable native species to maintain the slope stability, prevent erosion and surface run off. The selection of local species regulates local climatic parameters and help in adaptation of plant species to the microclimate. The gullies formed on slopes should be adequately taken care of as it impacts the overall stability of dumps. The dump mass should be consolidated with the help of dozer/ compactors thereby ensuring proper filling/ leveling of dump mass. In critical areas, use of geo textiles/ geo-membranes / clay liners / Bentonite etc. shall be undertaken for stabilization of the dump.	Yet to be complied	Agreed and noted for compliance. Project activities yet not started.
35)	Miscellaneous	The Project Proponent shall carry out slope stability study in case the dump height is more than 30 meters. The Slope stability report shall be submitted to concerned regional office of MoEF&CC.	Yet to be complied	Agreed and noted for compliance. Project activities yet not started.
36)	Miscellaneous	Catch drains, settling tanks and siltation ponds of appropriate size shall be constructed around the mine working, mineral yards and Top Soil/OB/ Waste dumps to prevent run off of water and flow of sediments directly into the water bodies (Nallah/ River/Pond etc.). The collected water should be utilized for watering the mine area, roads, green belt development, plantation etc. The drains/ sedimentation sumps etc. shall be de-silted regularly, particularly after monsoon season, and maintained properly	Yet to be complied	Agreed and noted for compliance. Project activities yet not started.
37)	Miscellaneous	Check dams of appropriate size, gradient and length shall be constructed around mine pit and OB dumps to prevent storm run-off and sediment flow into adjoining water bodies. A safety margin of 50% shall be kept for designing of sump structures over and above peak rainfall (based on 50 years data) and maximum discharge in the mine and its adjoining area which shall also help in	Yet to be complied	Agreed and assured for the compliance as per the given direction.

		providing adequate retention time period thereby allowing proper settling of sediments/silt material. The sedimentation pits/ sumps shall be constructed at the corners of the garland drains.		
38)	Miscellaneous	The Top Soil, if any, shall temporarily be stored at earmarked site (s) within the mine lease and should not be kept unutilized for long. The Physical parameters of the top soil dumps like height, width and angle of slope shall be governed as per the approved Mining Plan and as per the guidelines framed by DGMS w.r.t safety in mining operations shall be strictly adhered to maintain the stability of dumps. The topsoil shall be used for land reclamation and plantation purpose.	Yet to be complied	Agreed and assured for the compliance as per the given direction.
VII	<b>Transportation</b>			
39)	Miscellaneous	No Transportation of the minerals shall be allowed in case of roads passing through villages/ habitations. In such cases, PP shall construct a 'bypass' road for the purpose of transportation of the minerals leaving an adequate gap (say at least 200 meters) so that the adverse impact of sound and dust along with chances of accidents could be mitigated. All costs resulting from widening and strengthening of existing public road network shall be borne by the PP in consultation with nodal State Govt. Department. Transportation of minerals through road movement in case of existing village/ rural roads shall be allowed in consultation with nodal State Govt. Department only after required strengthening such that the carrying capacity of roads is increased to handle the traffic load. The pollution due to transportation load on the environment will be effectively controlled and water sprinkling will also be done regularly. Vehicular emissions shall be kept under control and regularly monitored. Project should obtain Pollution Under Control (PUC) certificate for all the vehicles from authorized pollution testing centers.	Yet to be complied	Agreed and assured for the compliance as per the given direction.
40)	Miscellaneous	The Main haulage road within the mine lease should be provided with a permanent water sprinkling arrangement for dust suppression. Other roads within the mine lease should be wetted regularly with tanker-mounted water	Yet to be complied	Agreed and noted for compliance. Project activities yet not started.

		sprinkling system. The other areas of dust generation like crushing zone, material transfer points, material yards etc. should invariably be provided with dust suppression arrangements. The air pollution control equipment's like bag filters, vacuum suction hoods, dry fogging system etc. shall be installed at Crushers, belt-conveyors and other areas prone to air pollution. The belt conveyor should be fully covered to avoid generation of dust while transportation. PP shall take necessary measures to avoid generation of fugitive dust emission.		
<b>VIII.</b>	<b>Green Belt</b>			
41)	Greenbelt	The Project Proponent shall develop greenbelt in 7.5m wide safety zone all along the mine lease boundary as per the guidelines of CPCB in order to arrest pollution emanating from mining operations within the lease. The whole Green belt shall be developed within first 5 years starting from windward side of the active mining area. The development of greenbelt shall be governed as per the EC granted by the Ministry irrespective of the stipulation made in approved mine plan.	Yet to be complied	Agreed and noted for compliance. Project activities yet not started.
42)	Greenbelt	The Project Proponent shall carryout plantation/ afforestation in backfilled and reclaimed area of mining lease, around water body, along the roadsides, in community areas etc. by planting the native species in consultation with the State Forest Department/ Agriculture Department/ Rural development department/ Tribal Welfare Department/ Gram Panchayat such that only those species be selected which are of use to the local people. The CPCB guidelines in this respect shall also be adhered. The density of the trees should be around 2500 saplings per Hectare. Adequate budgetary provision shall be made for protection and care of trees	Yet to be complied	Agreed and noted for compliance. Project activities yet not started.
43)	Greenbelt	The Project Proponent shall make necessary alternative arrangements for livestock feed by developing grazing land with a view to compensate those areas which are coming within the mine lease. The development of such grazing land shall be done in consultation with the State Government. In this regard, Project Proponent should essentially implement the directions of the Hon'ble Supreme Court with regard to	Yet to be complied	Agreed and noted for compliance. Project activities yet not started.

		acquisition of grazing land. The sparse trees on such grazing ground, which provide mid-day shelter from the scorching sun, should be scrupulously guarded/ protected against felling and plantation of such trees should be promoted.		
44)	Greenbelt	The Project Proponent shall undertake all precautionary measures for conservation and protection of endangered flora & Fauna and schedule –I species during mining operation. A wildlife Conservation plan shall be prepared for the same clearly delineating action to be taken for conservation of flora and fauna. The plan shall be approved by Chief Wildlife Warden of the State Govt.	Yet to Complied	Agreed and noted for compliance. Project activities not yet started.  However, there is no National Park, Wildlife Sanctuary, Biosphere Reserves, Tiger Reserves, and Wildlife Corridors, Reserved/Protected Forest etc. within 10 km radius of the mining lease area. Authenticated location map has been obtained from DCF, Jaisalmer vide letter no F()DCF/Technical/2021-22/177 dated 12.01.2022. <b>Please refer Annexure-1</b>
45)	Greenbelt	And implemented in consultation with State Forest & Wildlife department. A copy of Wildlife Conservation plan and its implementation status (annual) shall be submitted to the Regional Office of the Ministry.	Complied	Agreed. Project activities not yet started. However there is no Schedule-I species present within 10 km radius of the mining lease area. Letter has been obtained from DCF, Jaisalmer vide letter no F()DCF/Technical/2021-22/177 dated 12.01.2022. <b>Please refer Annexure-1</b>
<b>IX.</b>	<b>Public hearing and human health issues</b>			
46)	Public hearing and human health	The Project Proponent shall appoint an Occupational Health Specialist for Regular as well as Periodical medical examination of the workers engaged in the mining activities, as per the DGMS guidelines. The records shall be maintained properly. PP shall also carryout Occupational health check-ups in respect of workers which are having ailments like BP, diabetes, habitual smoking, etc. The check-ups shall be undertaken once in six months and necessary remedial/ preventive measures be taken. A status report on the same may be sent to MoEF&CC Regional Office and DGMS on half-yearly basis.	Yet to Complied	Agreed and noted for compliance. Project activities not yet started.

47)	Public and health hearing human	<p>The Project Proponent must demonstrate commitment to work towards 'Zero Harm' from their mining activities and carry out Health Risk Assessment (HRA) for identification workplace hazards and assess their potential risks to health and determine appropriate control measures to protect the health and wellbeing of workers and nearby community. The proponent shall maintain accurate and systematic records of the I-IRA. The I-IRA for neighbourhood has to focus on Public Health Problems like Malaria, Tuberculosis, HIV, Anaemia, Diarrhoea in children under five, respiratory infections due to bio mass cooking. The proponent shall also create awareness and educate the nearby community and workers for Sanitation, Personal Hygiene, Hand washing, not to defecate in open, Women Health and Hygiene (Providing Sanitary Napkins), hazard of tobacco and alcohol use. The Proponent shall carryout base line I-IRA for all the category of workers and thereafter every five years.</p>	Yet to Complied	<p>Agreed and noted for compliance. Project activities not yet started.</p>
48)	Public and health hearing human	<p>The Proponent shall carry out Occupational health surveillance which be a part of HRA and include Biological Monitoring where practical and feasible, and the tests and investigations relevant to the exposure (e.g. for Dust a X-Ray chest; For Noise Audiometric; for Lead Exposure Blood Lead, For Welders Full Ophthalmologic Assessment; for Manganese Miners a complete Neurological Assessment by a Certified Neurologist, and Manganese (Mn) Estimation in Blood; For Inorganic Chromium- Fortnightly skin inspection of hands and forearms by a responsible person. Except routine tests all tests would be carried out in a Lab accredited by NABH. Records of Health Surveillance must be kept for 30 years, including the results of and the records of Physical examination and tests. The record of exposure due to materials like Asbestos, Hard Rock Mining, Silica, Gold, Kaolin, Aluminium, Iron, Manganese, Chromium, Lead, Uranium need to be handed over to the Mining Department of the State in case the life of the mine is less than 30 years. It would be obligatory for the State Mines Departments to make arrangements for the safe and secure storage of the records including X-Ray. Only conventional X-Ray will be accepted for record purposes and not the digital one). must meet ILO criteria (17 x14 inches and of good quality).</p>	Yet to Complied	<p>Agreed and noted for compliance. Project activities not yet started.</p>

49)	Public and health	hearing human	The Proponent shall maintained a record of performance indicators for workers which includes (a) there should not be a significant decline in their Body Mass Index and it should stay between 18.5 -24.9, (b) the Final Chest X-Ray compared with the base line X-Ray should not show any capacities ,(c) At the end of their leaving job there should be no Diminution in their Lung Functions Forced Expiratory Volume in one second (FEV1) , forced vital capacity (FVC) and the ratio unless they are smokers which has to be adjusted and the effect of age , (d) their hearing should not be affected . as a proof an Audiogram (first and last need to be presented), (e) they should not have developed any persistent back pain, neck pain and the movement of their Hip, Knee and other joints should have normal range of movement, (f) they should not have suffered loss of any body part. The record of the same should be submitted to the regional office. MoEF&CC annually along with details of the relief and compensation paid to workers having above indications.	Yet to Complied	Agreed and noted for compliance. Project activities not yet started.
50)	Public and health	hearing human	The Project Proponent shall ensure that Personnel working in dusty areas should wear protective respiratory devices and they should also be provided with adequate training and information on safety and health aspects.	Yet to Complied	Agreed and noted for compliance. Project activities not yet started.
51)	Public and health	hearing human	Project Proponent shall make provision for the housing for workers/labors or shall construct labor camps within/outside (company owned land) with necessary basic infrastructure/ facilities like fuel for cooking, mobile toilets, mobile STP, safe drinking water, medical health care, crèche for kids etc. The housing may be provided in the form of temporary structures which can be removed after the completion of the project related infrastructure. The domestic waste water should be treated with STP in order to avoid contamination of underground water.	Yet to be complied	Agreed and noted for compliance. Project activities not yet started.
52)	Public and health	hearing human	The activities proposed in Action plan prepared for addressing the issues raised during the Public Hearing shall be completed as per the budgetary provisions mentioned in the Action Plan and within the stipulated time frame. The Status Report on implementation of Action Plan shall be submitted to the concerned Regional	Yet to be complied	Agreed and noted for compliance. Project activities not yet started.

		Office of the Ministry along with District Administration.		
<b>X. Corporate Environment Responsibility (CER)</b>				
53)	Corporate Environment Responsibility	The activities and budget earmarked for Corporate Environmental Responsibility (CER) as per Ministry's O M No 22-65/2017-IA. II (M) dated 01.05.2018 or as proposed by EAC should be kept in a separate bank account. The activities proposed for CER shall be implemented in a time bound manner and annual report of implementation of the same along with documentary proof viz. photographs, purchase documents, latitude & longitude of infrastructure developed & road constructed needs to be submitted to Regional Office MoEF&CC annually along with audited statement.	Yet to be complied	Agreed and noted for compliance.  Project activities not yet started.
54)	Corporate Environment Responsibility	Project Proponent shall keep the funds earmarked for environmental protection measures in a separate account and refrain from diverting the same for other purposes. The Year wise expenditure of such funds should be reported to the MoEF&CC and its concerned Regional Office.	Yet to be complied	Agreed and noted for compliance.  Project activities not yet started.
<b>XI Miscellaneous</b>				
55)	Miscellaneous	The Project Proponent shall prepare digital map (land use & land cover) of the entire lease area once in five years purpose of monitoring land use pattern and submit a report to concerned Regional Office of the MoEF&CC.	Yet to be complied	Agreed and noted for compliance. Project activities not yet started.
56)	Miscellaneous	The Project Authorities should inform to the Regional Office regarding date of financial closures and final approval of the project by the concerned authorities and the date of start of land development work.	Yet to be complied	Agreed and noted.
57)	Miscellaneous	The Project Proponent shall submit six monthly compliance reports on the status of the implementation of the stipulated environmental safeguards to the MOEFCC & its concerned Regional Office, Central Pollution Control Board and State Pollution Control Board.	complied	Six Monthly compliance report regularly submitted to the MOEFCC & its concerned Regional Office, Central Pollution Control Board and State Pollution Control Board.
58)	Miscellaneous	A separate 'Environmental Management Cell' with suitable qualified manpower should be set-up under the control of a Senior Executive. The Senior Executive shall directly report to Head of the Organization.	Yet to be complied	Project activities not yet started. A separate 'Environmental Management Cell will be set-up under the control of

		Adequate number of qualified Environmental Scientists and Mining Engineers shall be appointed and submit a report to RO, MoEFCC.		a Senior Executive and the senior Executive directly report to the Unit Head.
59)	Miscellaneous	The concerned Regional Office of the MoEFCC shall randomly monitor compliance of the stipulated conditions. The project authorities should extend full cooperation to the MoEFCC officer(s) by furnishing the requisite data / information / monitoring reports.	Complied	Agreed and Noted.
<b>B. STANDARD EC CONDITIONS FOR MINERAL BENEFICIATION PLANTS</b>				
<b>I. Statutory Compliance</b>				
1	Statutory Compliance	The project proponents obtain Forest clearance under the provision of forest (conservation) Act 1986 in case of the diversion of forest land for non- forest purpose involved in the project.	Complied	Agreed and will be complied whenever applicable in future.
2	Statutory Compliance	The project proponents shall obtain clearance from the National board for wildlife, if applicable.	Not Applicable	Not Applicable, There is no National Park, Wildlife Sanctuary, Biosphere Reserves, Tiger Reserves, and Wildlife Corridors, Reserved/Protected Forest etc. within 10 km radius of the mining lease area. Authenticated location map has been obtained from DCF, Jaisalmer vide letter no F()DCF/Technical/2021-22/177 dated 12.01.2022. <b>Please refer Annexure-1</b>
3	Statutory Compliance	The project proponents shall prepare a Site-Specific conservation plan & Wildlife Management plan and approved by the Chief Wildlife Warden. The recommendation of the approved Site-Specific conservation plan/ Wildlife Management plan shall be implemented in consultation with the state forest. The implementation report Shall be furnished along with the six monthly compliance report. (In case of the presence of Schedule-I species in the study area).	Complied	Agreed. Project activities not yet started. However, there is no Schedule-I species present within 10 km radius of the mining lease area. Letter has been obtained from DCF, Jaisalmer vide letter no F()DCF/Technical/2021-22/177 dated 12.01.2022. <b>Please refer Annexure-1</b>
4	Statutory Compliance	The project proponent shall obtain Consent to Establish/ Operate under the provision of Air (prevention and control of pollution) Act 1981 and the Water (prevention and control	Complied	Complied with. Consent to operate has been obtained for SPCB vide letter no F(Mines)/Jaisalmer(Mohang

		of pollution) Act 1974 from the concern State Pollution Control Board/ Committee.		arh)/10(1)/2022-2023/3651-3655 dated 31.08.2023 valid upto 31.07.2028 . Copy of the same is enclosed as Annexure-2.
5	Statutory Compliance	The project proponents shall obtain the necessary permission from the Central Ground Water Authority, in case of drawl of groundwater/ from the competent Authority concerned in case of drawl of surface water required for the project.	Complied	Project activities yet not started. However Permission for allocation of water from Indira Gandhi Canal has been obtained from Indira Gandhi Nahar Department, Department of Water Resources, Govt of Rajasthan vide letter no F. 6(3) IGNB/2021 dated 04.03.2022. Application has been submitted to CGWA for ground water abstraction vide application No 21-4/17177/RJ/MIN/2022 dated 05.05.2022. <b>Please refer Annexure-2</b>
6	Statutory Compliance	The project proponent shall obtain authorization under the Hazardous & Other Waste Management Rule, 2016 as amended from time to time.	Yet to Complied	Agreed and noted for compliance. Project activities not yet started.
<b>II</b>	<b>Air Quality Monitoring and Preservation</b>			
7	Air Quality Monitoring and Preservation	The project proponents shall install 24 X 7 continuous emission monitoring system at process stack to monitor the stack emission with respect to standard prescribed in Environmental (Protection) Rules 1986 as amended from time to time and connected to SPCB & CPCB online server and calibrate these system from time to time according to equipment suppliers specification through labs recognized under Environment (Protection) Act, 1986 or NABL accredited laboratories. Monitor fugitive emission in the plant premises.	Yet to Complied	Agreed and noted for compliance. Project activities not yet started.
8	Air Quality Monitoring and Preservation	The project proponent shall monitor fugitive emission in the plant premises at least one in every quarter through lab recognized under Environment protection Act 1986. The project proponent shall install system to carry out continuous Ambient Air Quality monitoring for common/ criterion	Yet to Complied	Agreed and noted for compliance. Project activities not yet started.

		parameter relevant to the main pollutant released (i.e. PM10 and PM 2.5 in reference to PM Emissions and SO2 and NOx in reference to SO2 and NOx emissions) within and outside the plant area at least four locations (one within and three outside the plant area at the angle of 120' each) covering upwind and downwind directions.		
9	Air Quality Monitoring and Preservation	The project proponent shall monitor fugitive emission in the plant premises at least one in every quarter through lab recognized under Environment protection Act 1986. The project proponent shall install system to carry out continuous Ambient Air Quality monitoring for common/ criterion parameter relevant to the main pollutant released (i.e. PM10 and PM 2.5 in reference to PM Emissions and SO2 and NOx in reference to SO2 and NOx emissions) within and outside the plant area at least four locations (one within and three outside the plant area at the angle of 120' each) covering upwind and downwind directions.	Yet to Complied	Agreed and noted for compliance. Project activities not yet started.
10	Air Quality Monitoring and Preservation	The project proponent shall submit monthly summary report of continuous stack emission and air quality monitoring and results of manual stack monitoring and manual monitoring of air quality/ fugitive emission to Regional office of MoEF&CC, Zonal office of CPCB and Regional Office of SPCB along with six monthly monitoring report.	Yet to Complied	Agreed and noted for compliance. Project activities not yet started.
11	Air Quality Monitoring and Preservation	Appropriate Air Pollution Control (APC) system shall be provided for all the dust generating points including fugitive dust from all vulnerable sources, so as to comply prescribed stack emission and fugitive emission standards.	Yet to Complied	Agreed and noted for compliance. Project activities not yet started.
12	Air Quality Monitoring and Preservation	The project popular use leak proof trucks/dumpers carrying ore and other raw material and cover them with tarpaulin.	Yet to Complied	Agreed and noted for compliance. Project activities not yet started.
13	Air Quality Monitoring and Preservation	Wind shelter fence and chemical spraying shall be provided on the raw materials stock piles.	Yet to Complied	Agreed and noted for compliance. Project activities not yet started.

14	Air Quality Monitoring and Preservation	Design the ventilation system for adequate air changes as per ACGIH document for all tunnels, motor houses, Oil cellars.	Yet to Complied	Agreed and noted for compliance. Project activities not yet started.
<b>III Water quality monitoring and preservation</b>				
15	Water quality monitoring and preservation	The project Proponent shall install 24 X 7 continuous effluent monitoring system with respect to standards prescribed in Environment (protection) Rule 1986, as amended from time to time and connected to SPCB & CPCB online servers and calibrate these system from time to time according to equipment supplier specification through labs recognized under Environment (protection) Act 1986 or NABL accredited Laboratories.	Not Applicable	There will be no any waste water generation due to mine operation hence installation of 24 X 7 continuous effluent monitoring system is not applicable.
16	Water quality monitoring and preservation	The project proponents shall monitor regularly groundwater quality at least twice a year (pre and post monsoon) at sufficient number of piezometer/ sampling wells in the plant and adjacent area through labs recognized under Environment (protection) Act, 1986 and NABL accredited Laboratories.	Yet to Complied	Agreed and noted for compliance. Project activities not yet started.
17	Water quality monitoring and preservation	The Project proponent shall submit monthly summary report of continuous effluent monitoring and result of manual effluent testing and manual monitoring of groundwater quality to Regional office of MoEF&CC, Zonal office of CPCB and Regional Office of SPCB along with six monthly monitoring report.	Yet to Complied	Agreed and noted for compliance. Project activities not yet started. However there will be no any waste water generation due to Mine Operation.
18	Water quality monitoring and preservation	The Project proponent shall provide the slime disposal facility with impervious lining and collection wells for seepage. The water collected from the slime pond shall be treated and recycled.	Yet to Complied	Agreed and noted for compliance. Project activities not yet started.
19	Water quality monitoring and preservation	Adhere to 'zero Liquid Discharge'	Yet to Complied	Agreed and noted for compliance. Project activities not yet started.
20	Water quality monitoring and preservation	Sewage Treatment Plant shall be provided for treatment of domestic wastewater to meet the prescribed standards.	Yet to Complied	Agreed and noted for compliance. Project activities not yet started.

21	Water quality monitoring and preservation	Garland drain and collection pits shall be provided for each stock pile to arrest the run-off in the event of heavy rain and to check the water pollution due to surface run-off.	Yet to Complied	Agreed and noted for compliance. Project activities not yet started.
22	Water quality monitoring and preservation	The project proponent shall practice rainwater harvesting to maximum possible extent.	Yet to Complied	Agreed and noted for compliance. Project activities not yet started.
23	Water quality monitoring and preservation	The project proponents shall make efforts to minimize water consumption in the steel plant complex by segregation of used water practicing cascade and by recycling treated water.	Yet to Complied	Agreed and noted for compliance. Project activities not yet started.
<b>IV</b>	<b>Noise monitoring and prevention</b>			
24	Noise monitoring and prevention	Noise level survey shall be carried out as per the prescribed guideline and report in this regard shall be submitted to Regional Office of the Ministry are part of six monthly compliance report.	Yet to Complied	Agreed and noted for compliance. Project activities not yet started.
25	Noise monitoring and prevention	The ambient noise level should conform to the standard prescribed under E(P)A Rule, 1986 viz. 75db (A) during day time and 70db (A) during night time.	Yet to Complied	Agreed and noted for compliance. Project activities not yet started.
<b>V</b>	<b>Energy conservation measures</b>			
26	Energy conservation measures	Provide solar power generation on roof tops of buildings, for solar light system for all common area, streetlight, parking around project area and maintain the same regularly.	Yet to Complied	Agreed and noted for compliance. Project activities not yet started.
27	Energy conservation measures	Provide LED lights in their offices and residential areas.	Yet to Complied	Agreed and noted for compliance. Project activities not yet started.
<b>VI</b>	<b>Waste Management</b>			
28	Waste Management	The waste oil, grease and other hazardous waste shall be disposed of as per the hazardous and other Waste (Management and Transboundary Movement) Rules, 2016.	Yet to Complied	Agreed and noted for compliance. Project activities not yet started.
29	Waste Management	Kitchen waste shall be composted or converted to biogas for further use. ( to be decided on case to case basis depending on type and size of plant)	Yet to Complied	Agreed and noted for compliance. Project activities not yet started.

<b>VII</b>	<b>Greenbelt and EMP</b>			
30	Greenbelt and EMP	Greenbelt shall be developed in an area equal to 33% of the plant area with the native tree species in accordance with the CPCB guideline. The greenbelt shall inter alia cover the entire periphery of the plant.	Yet to Complied	Agreed and noted for compliance. Project activities not yet started.
31	Greenbelt and EMP	The Project Proponent shall prepare GHG emission inventory for the plant and shall submit the programme for reduction of the same including carbon sequestration including Plantation.	Yet to Complied	Agreed and noted for compliance. Project activities not yet started.
<b>VIII</b>	<b>Public hearing and Human health issues</b>			
32	Public hearing and Human health issues	Emergency preparedness plan based on the Hazard identification and Risk assessment (HIRA) and Disaster Management Plan shall be implemented.	Yet to Complied	Agreed and noted for compliance. Project activities not yet started.
33	Public hearing and Human health issues	The project proponent shall carry out heat stress analysis for the workmen who work in high-temperature work Zone and provide Personal Protection Equipment (PPE) as per the norms of factory Act.	Yet to Complied	Agreed and noted for compliance. Project activities not yet started.
34	Public hearing and Human health issues	Provision shall be made for the Housing of construction labour within the site with all necessary infrastructure and facilities such as fuel for cooking, mobile toilets, mobile STP, safe drinking water, medical health care creche etc. The housing may be in the form of temporary structures to be removed after the completion of the project.	Yet to Complied	Agreed and noted for compliance. Project activities not yet started.
35	Public hearing and Human health issues	Occupational health surveillance of the worker shall be done on a regular basis and records maintained as per the Factory Act.	Yet to Complied	Agreed and noted for compliance. Project activities not yet started.
<b>IX</b>	<b>Corporate Environment Responsibility</b>			
36	Corporate Environment Responsibility	The Project Proponent shall submit the time bound action plan to the concerned regional office of the ministry within 6 months from the date of issuance of the environment clearance for undertaking the activity committed during public consultation by the project proponent and as discussed by EAC, in terms of the provision of the MoEF&CC Office Memorandum No. 22-65/2017-IA.III dated 30 September 2020. The action plan shall be implemented within three years of commencement of the project.	Yet to Complied	Agreed and noted for compliance. Project activities not yet started. <b>Copy of time bound action plan is enclosed as annexure-5</b>

37	Corporate Environment Responsibility	The company shall have a well laid down Environmental Policy duly approve by the Board of Directors. The Environmental Policy should prescribed for standard operating procedure to have proper checks and balance and to bring into Focus any infringements/ deviation/ violation of the environmental/ forest/ wildlife norms/ conditions. The company shall have defined system of reporting infringements/ deviation/ violation of the environmental/ forest/ wildlife norms/ conditions and/ or shareholders/ stakeholders. The copy of the board resolution in this regard shall be submitted to the MoEF&CC as a part of six-monthly report.	Yet to Complied	Agreed and noted for compliance. Project activities not yet started.
38	Corporate Environment Responsibility	A separate Environmental Cell both at the project and Company headquarter level, with qualified personnel shall be set up under the control of senior Executives, who will directly to the head of the Organization.	Yet to Complied	Agreed and noted for compliance. Project activities not yet started.
39	Corporate Environment Responsibility	Action plan for implementing EMP and environmental conditions along with responsibility matrix of the company shall be prepared and shall be duly approved by competent Authority. The year wise fund earmarked for Environmental Protection measures shall be kept in separate account and not to be diverted for any other purpose. Year wise progress of implementation of action plan shall be reported to the Ministry/ Regional Office along with the Six monthly Compliance Report.	Yet to Complied	Agreed and noted for compliance. Project activities not yet started.
40	Corporate Environment Responsibility	Self-environmental audit shall be conducted. Every Three year third party environmental audit shall be carried out.	Yet to Complied	Agreed and noted for compliance. Project activities not yet started.
41	Corporate Environment Responsibility	All the recommendation made in the Charter on Corporate Responsibility for Environmental Protection (CREP) for the Mineral Beneficiation plant shall be implemented.	Yet to Complied	Agreed and noted for compliance. Project activities not yet started.
<b>X</b>	<b>Miscellaneous</b>			
42)	Miscellaneous	The Project Proponent shall make public the environmental clearance granted for their project along with the environmental condition and safeguarded at their cost by	Yet to Complied	Agreed and noted for compliance. Project activities not yet started.

		prominently advertising it at least two local newspaper of the District or State, of which one shall be in the vernacular language within seven days and in addition this shall also be displayed in the project proponent's website permanently.		
43	Miscellaneous	The copies of the environmental clearance shall be submitted by the project proponent to the Head of local bodies, Panchayats and Municipal Bodies in addition to the relevant offices of the Government who in turn has to display the same for 30 days from the date of the receipt.	Yet to Complied	EC letter has been submitted to concerned Panchayat vide letter No.: JSL/PROJ/03 dated 16.07.2022.
44	Miscellaneous	The project proponents shall upload the status of compliance of the stipulated environmental clearance conditions, including results of monitored data on their website and update the same on half-yearly basis.	Yet to Complied	Agreed and noted for compliance. Project activities not yet started.
45	Miscellaneous	The project proponent shall monitor the criteria pollutants level namely PM 10, SO <sub>2</sub> , NO <sub>x</sub> (ambient levels as well as stack emission) or critical sectoral parameters, indicated for the projects and display the same at the convenient location for disclosure to the public and put on the website of the company.	Yet to Complied	Agreed and noted for compliance. Project activities not yet started.
46	Miscellaneous	The project proponent shall submit six monthly reports on the status of the compliance of the stipulated environmental conditions on the website of the ministry of Environment Forest and climate change at environmental clearance portal.	Yet to Complied	Agreed and noted for compliance. Project activities not yet started.
47	Miscellaneous	The project proponent shall submit the environmental statement of each Financial year in form V to the concerned the State Pollution Control Board as prescribed under the Environmental (Protection) rules 1986, as amended subsequently and put on the website of the company.	Yet to Complied	Agreed and noted for compliance. Project activities not yet started.
48	Miscellaneous	The project proponent shall inform the Regional Office as well as the Ministry, the date of financial closure and final approval of the project by the concerned Authorities, commencing the land development work and start of production operation by the project.	Yet to Complied	Agreed and noted.

49	Miscellaneous	The project Authority must strictly adhere to the stipulations made by the State Pollution Control Board and State government.	Yet to Complied	Agreed and noted for compliance.  Project activities not yet started.
50	Miscellaneous	The project proponents shall abide by all the commitments and recommendations made in the EIA/EMP report, commitment made during Public Hearing and also that during their presentation to the Expert Appraisal Committee.	Yet to Complied	Noted and Agreed for compliance. Project activities not yet started.
51	Miscellaneous	No further expansion or modifications in the plant shall be carried out without prior approval of the Ministry of Environment, Forest and Climate Change (MoEF&CC).	Yet to Complied	Noted and Agreed
21	Miscellaneous	The Ministry or any other competent authority may alter/modify the above conditions or stipulate any further condition in the interest of environment protection	Complied	Agreed & noted.
22	Miscellaneous	Concealing factual data or submission of false/ fabricated data and failure to comply with any of the conditions mentioned above may result in withdrawal of this clearance and attract action under the provisions of Environment (Protection) Act, 19	Complied	Agreed & noted.
23	Miscellaneous	The above conditions will be enforced inter-alia, under the provisions of the Water (Prevention & Control of Pollution) Act, 1974, the Air (Prevention & Control of Pollution) Act, 1981, the Environment (Protection) Act, 1986 and the Public Liability Insurance Act, 1991 along with their amendments and rules made there under and also any other orders passed by the Hon'ble Supreme Court of India/ High Court and any other Court of Law relating to the subject matter.	Complied	Agreed & noted. Project activities not yet started.
24	Miscellaneous	Any appeal against this environmental clearance shall lie with the National Green Tribunal, if preferred, within a period of 30 days as prescribed under Section 16 of the National Green Tribunal Act, 2010.	Complied	Agreed & noted.
25	Miscellaneous	The issues with the approval of competent Authority.	Complied	Agreed.

Order No 2023-2024/Mines/10920

Date: 31/08/2023

Unit Id : 121,381

- 5 That this consent to establish/consent to operate is only for carrying out mining of mineral/ore and not for any processing/beneficiation or crushing/grinding of ore/mineral for which a separate application for consent to establish and/or consent to operate should be submitted. The project proponent is required to obtain separate consent to establish and consent to operate for carrying out mining of other minerals(s), if any or processing/beneficiation of such mineral(s) and for any addition/modification/alteration or change in process.
- 6 That this **Consent to Operate** is for mining / processing / beneficiation of product as mentioned above in **M.L.No.-p3(1)Khan/Gr.-2/2021** and a separate **Consent to Operate** is required to be obtained for any other Mineral mining/ processing/ beneficiation Plant/process if any and for any addition/ modification/ alteration or change in process.
- 7 That the occupier/operator of mine shall ensure that all the conditions imposed in the Environmental Clearance granted by MoEF&CC dated 11.07.2022 are strictly complied with.
- 8 All the EC conditions w.r.t. to PCM, Environmental Matters shall be strictly followed.
- 9 That this consent is valid for production of Limestone(ROM) @ 5.50 Million Tonnes Per Annum. For any change in product and/or increase in capacity/lease area, the mine has to seek fresh Environmental Clearance, consent to establish & consent to operate.
- 10 That the occupier/operator of the unit shall give more focus on plantation to cover 1/3 lease area under plantation. The species like Tamarind/Imli(Tamarindus Indica), Palas(Butea Monosperma), Ber(Zizipus Mauritiana), Bael(Aegle Marmelos), Mousari(Mimusops Elengi), Siris(Albizia Lebbeck), Kacchnar(Bauhinia Variegata) should be planted for better control of noise and air pollution. Copy of bills of saplings purchased should be submitted to Board's Regional Office, Jaisalmer. The compliance of green belt development in the unit to be submitted by the PP after 6 months along with the photographic evidence.
- 11 The lessee shall gradually use co-processing materials in the mine to the considerable extent.
- 12 That the lessee shall submit monitoring report of Ambient Air Quality within the lease area, once in 3 months.
- 13 That the lessee shall install 3 nos. of Continuous Ambient Air Quality Monitoring Stations at Mine office for the measurement of air quality for PM10, PM2.5, NO2, CO and SO2 and also ensure real time data connectivity with RSPCB server.

Order No 2023-2024/Mines/10920

Date: 31/08/2023

Unit Id : 121,381

- 14 That the lessee shall install 1 nos. of Piezo-meter along the periphery and regularly monitor and maintain records w.r.t. ground water level and quality in and around the mine lease.
- 15 That the Quality of polluted water generated from mining operations which include Chemical Oxygen Demand (COD) in mines run-off, acid mine drainage and metal contamination in runoff shall be monitored along with Total Suspended Solids (TDS), Dissolved Oxygen (DO), pH and Total Suspended Solids (TSS).
- 16 That the Industrial waste water (workshop and waste water from the mine) should be properly collected and treated. The workshop effluent shall be treated after its initial passage through Oil and grease trap.
- 17 That ground water shall not be abstracted without prior permission of the Central Ground Water Authority (CGWA).
- 18 That internal transport roads (Haul roads) should be Paved/Hard Surfaced using bitumen etc.
- 19 That haul roads should be regularly graded and compacted. Regular water sprinkling should be carried out on haul roads to minimize dust generations.
- 20 That adequate measure shall be taken for control of fugitive emissions from the areas prone to air pollution.
- 21 That you shall not establish/operate any stone crusher/mineral grinding/mineral processing plant within said lease without obtaining prior consent of the State Board.
- 22 That this consent to operate shall not be valid, if the lessee has not obtained permissions required, if any, from NBWL/Forest Department etc. with respect to Wild Life Sanctuary /National Parks/ Critical Tiger Habitats in compliance of various orders passed by any other law /act/rule/regulation or order of MOE&F and/or any Court / Tribunal time to time
- 23 That regular water sprinkling should be carried out in critical areas prone to air pollution and having high levels of SPM and RSPM such as on haul road, loading and unloading points and transfer points.
- 24 That the mine shall install adequately designed rain water harvesting structure for prevention and recharge of ground water in and around the lease area.
- 25 That the mine shall not allow making any obstacles to any natural water flow i.e., natural nallah/steam carrying rain water to any water body.
- 26 This the mine shall not allow unauthorized disposal of any solid waste on land inside or outside the premises.
- 27 That this consent to operate shall be subject to compliance of direction/order passed by Courts of Law in the matter,if any.

- 28 That the lessee should dump the overburden in such a manner that it does not get washed away to nearby water tanks and lakes etc. during rainy season.
- 29 That the lease shall not intersect the ground water table without permission of CGWA.
- 30 This consent shall be subject to validity of mining lease.
- 31 That all other general conditions enclosed as **Annexure** shall be strictly complied with.
- 32 That this Consent is subject to the conditions as stated above and general conditions as stated in Annexure. Further, the mining unit will comply with the provisions of the Air (Prevention & Control of Pollution) Act, 1981 & Water (Prevention & Control of Pollution) Act, 1974 and any such conditions as may be specified from time to time by the State Board under the provisions of the aforesaid Acts.
- 33 That the grant of this **Consent to Operate** is issued from the environmental angle only, and does not absolve the project proponent from the other statutory obligations prescribed under any other law or any other instrument in force. The sole and complete responsibility, to comply with the conditions laid down in all other laws for the time-being in force, rests with the industry/ unit/ project proponent.
- 34 That the grant of this **Consent to Operate** shall not, in any way, adversely affect or jeopardize the legal proceedings, if any, instituted in the past or that could be instituted against you by the State Board for violation of the provisions of the Act or the Rules made thereunder.
- 35 That the grant of this consent to establish/operate is issued from the environmental angle only, and does not absolve the project proponent from the other statutory obligations prescribed under any other law or any other legal instrument in force. The sole and complete responsibility, to comply with the conditons laid down in all other laws for the time-being in force, rests with the industry/unit/project proponent.

This bears approval of the competent authority.

Encl: As Above

Yours sincerely,

Group Incharge-Mines

No. F. 6(3) IGNB/2021

Jaipur, Date :-04.03.2022

Sub: Allocation of water from IGNP for proposed Lime stone Mine and Cement plant of JK Cement Ltd. in village Khiyan and Parewar, Mohangarh, Jaisalmer.

Sir,

With reference to your letter dated 20.12.2021 and 15.02.2022, I am directed to convey sanction for supply of 1700 KLD water from Indira Gandhi Nahar Project for your proposed Limestone Mine and Cement plant in Mohangarh, Jaisalmer on following conditions-

1. Water will be supplied at the rate prescribed by GOR, time to time for industrial uses.
2. All expenditure for arrangement of supplying water will be borne by JK Cement.
3. The company shall ensure to adopt latest techniques for efficient use of water.
4. The company shall ensure to develop full capacity upto the end of five years from the date of issue of this order. Sanction will be freezed up to the quantity of water being utilized at the end of 5 years & this sanction for balance quantity, if any, will stand cancelled. If any fresh demand after this period, the application of company will be considered on the merit.
5. Location of offtake point for water supply will be decided in consultation with Additional Chief Engineer, IGNP, Jaisalmer
6. The Company will make necessary water storage arrangement to take care of its requirement during annual canal closure.

This issues as per sanction received vide MR no: 151/M/WRD/2022 dated 16.02.2022 of Hon'ble Minister IGND & WRD.

Yours faithfully,

  
(Jitendra Dixit)

## श स्तरीय प्रशिक्षण नेभाई भागीदारी

प्रशिक्षण के दौरान उपस्थित भाजपा पदाधिकारी।

डा. डाला। किया। इस अवसर पर प्रदेशाध्यक्ष सतीश पुनिया ने सभी का आभार जताया। इस प्रशिक्षण में जैसलमेर से जिलाध्यक्ष के साथ दोनों प्रदेश कार्यसमिति सदस्य ठाकुर विक्रमसिंह नाचन व कविता कैलाश खत्री ने भी भाग लिया।

## 9 विद्यार्थियों का नवोदय विद्यालय में हुआ चयन

रामप्रद। सोनू में मां जगदम्बा शिक्षण संस्थान के 9 विद्यार्थियों का नवोदय विद्यालय कक्षा 6 में चयन होने पर ग्रामीणों ने खुशी जताई है। अभिभावकों ने शिक्षण संस्थान के प्रधानाचार्य व अध्यापकों को बधाई देते हुए अपने बच्चों के उज्ज्वल भविष्य की कामना की। व्यवस्थापक चंदनसिंह ने बताया कि मां जगदम्बा शिक्षण संस्थान में अध्ययनरत धामू कंवर जोगा, ममता कंवर मोती कित्तो की दाणी, सदीपसिंह सेरावा, दीप्ति कंवर सोनू, शिवराजसिंह सोनू, मनीषा कंवर सोनू, प्रियंका कंवर सोनू, भावना कंवर सोनू तथा भोमसिंह सोनू का नवोदय विद्यालय में चयन हुआ है।

## पूर्व विधायक का ग्रामीण क्षेत्रों का दौरा, लोगों से की मुलाकात

भास्कर संवाददाता। पोकरण

भारतीय जनता पार्टी के वरिष्ठ नेता व पूर्व विधायक रौतानसिंह राठौड़ ने बुधवार को गुरु पूर्णिमा के अवसर पर ग्रामीण क्षेत्रों का दौरा कर ग्रामीणों से मुलाकात की। इसके साथ ही कार्यक्रमकर्ताओं के साथ बैठकें आयोजित की। पूर्व विधायक राठौड़ ने बुधवार को मोरानी स्थित हनुमान मंदिर में दर्शन कर वहां पर भाजपा कार्यकर्ताओं से मुलाकात की। इसके साथ ही उन्होंने लवां व डिडाणिया क्षेत्र का दौरा किया। इस

अवसर पर उन्होंने कहा कि कांग्रेस सरकार द्वारा आमजन की भावनाओं के साथ खिलवाड़ कर रही है। वहीं दूसरी ओर जो घोषणाएं की हैं उन्हें भी पूर्ण नहीं कर पा रही है। जिसके कारण आमजन को सरकार की घोषणाओं का लाभ नहीं मिल पा रहा है। इस अवसर पर पूर्व विधायक रौतानसिंह राठौड़ के साथ जगदीश माली, राहुल माली, माणकलाल मोरानी, चमनलाल मोरानी, दुर्गादास वैष्णव सहित काफी संख्या में भाजपा कार्यकर्ता उपस्थित रहे।

## किसान सम्मेलन को लेकर बैठक

पत्रिका न्यूज नेटवर्क  
020-26118000

जैसलमेर 24 जुलाई को प्रताप फाउंडेशन के तत्वावधान में आयोजित होने वाले किसान सम्मेलन को लेकर सोढ़ाण क्षेत्र की प्रथम बैठक खजाला मठ म्याजलार में मठाधीश गुरु गोरखनाथ के आशीर्वाद से आयोजित की गई।

प्रारंभ में मंजूर करण करवाकर कार्यक्रम सुधार किया गया। बैठक के दौरान रक्षित युवाक संघ जैतपुर में संस्था प्रमुख तारेद्र सिंह सिनसिन्धियाली ने कहा कि किसान एक व्यापक संघ है। इसी को ध्यान में रखते हुए प्रताप चारुडेसन सभी समाजों को एक मंच पर लाकर सामाजिक सद्भावना स्थापित करने का कार्य कर रहा है।

वरिष्ठ स्वयंसेवक बाबुसिंह वैरसियाला ने कहा कि जैसलमेर में आयोजित होने वाले विज्ञान सम्मेलन को लेकर हम सभी अभी से

सौरियरी के जाए। फुटबॉल सभ  
निला आ धुईया घेसोना ने  
कहा कि हे पूवज सभो जातिमे  
को साथ लो जुके हित के लिए  
अगे रहते लेकिन वर्तमान मे  
हमारे बीच रिया पैदा की गई  
जिससे हमारेति अन्य समाजी मे  
नजरानाकत सा भाव बढ़ा, लेकिन  
आज भी गांव मे प्रत्येक जाति के  
लोग हमारे का मुला शांति से रहते  
। सरपंच सफाई आ अख्यस जेदर  
मंड सत्ती न कहा कि प्रताप  
मंडडेगन का ओर से यह फल की  
का रही है वह अपने आप मे  
विश्वसिक है। बाहमेर मे आयोजित  
कार्यक्रम की चरो ओर सरताहा की  
गई है। बैठक मे प्रत्येक गांव की

अलग-अलग टीम बनाई गई है। वहीं मुख्य कार्यक्रम जैसलमेर आने के लिए खद्योनी को व्यवस्था संबंधी निम्नोपरिष्कारों की गई है। इसी वार्दी में किसान सम्मेलन को लेकर बैठक खयाला मठ ग्याजलार में अजयोजित की गई। बैठक में मठ के प्रेमाचार, मोतीनाथ के खय तवाइसिंह ग्याजलार, नरतपसिंह ग्याजलार, गेनदसिंह करूते, उम्मेदसिंह गुजगलार, गुमसिंह रावतरी, भुरसिंह लुनार, खीमसिंह खाय, तालुसिंह करइ, चाकसिंह भाटी, मुल्तानाथ मुखार, कलसिंह फिजराज का तला, मुल्तानसिंह फुलिया सहित क्षेत्र के आस्थापन गाँवों के सर्वसमान के लोग तपस्थित रहे।

## आग में झुलसे युवक की मौत

बेनीवाल ने आर्थिक सहायता देने को कहा

पत्रिका न्यूज नेटवर्क  
patrika.com

जैसलमेर, जिले के सांख पुलिस थाना क्षेत्र के दवाड़ा में सौर ऊर्जा कंपनी में बीकानेर जिले के गजबख्शा रणजीतपुरा निवासी दिनेश कुमार बिस्नोई की गत दिनों हुए एकआपसी पैन्ल ब्लास्ट में शूलस जाने के बाद जोधपुर के महाश्वर गांधी अस्पताल में इलाज के दौरान मृत्यु हो गई। इस पर बुधवार को गांधी अस्पताल की भोचरी के बाहर नागीर सांसद व राष्ट्रीय लोकतान्त्रिक पार्टी के संयोजक शुभमान बेनीवाल ने प्रतिक के

परिजनों से मुलाकात की। उसके बाद सांसद ने संबंधित कंपनी के प्रतिनिधियों को दुराग्रह पर खार्ता कर मृतक के परिजनों को अधिकतम आर्थिक सहायता देने के लिए कहा। उन्होंने जैसलमेर के जिला पतिय

अधीक्षक से दूरपाथ पर वाला कर प्रकरण में न्यायोचित कार्रवाई करने के कहा। सांसद ने कहा कि कंपनी को कार्य कर रहे श्रमिकों व अन्य लोगों की सुरक्षा के लिए आवश्यक प्रोटोकॉल अपनाने की जरूरत है।

बैठक 17 को

रामदेवरा, संत हरजीराम मेमकल सनाज धर्मशाला सेवा संस्थान की आम बैठक 17 जुलाई को रामदेवरा धर्मशाला में आयोजित होगी। बैठक में आग्र-चग्र, पूर्व में लिए निर्णयों की समीक्षा, कार्यों की प्रगति रिपोर्ट, सामाजिक जाग्रति आदि पर विचार-विमर्श किया जाएगा। कार्यक्रमणी को निर्वाचित होगा। नर सदस्य 15 जुलाई तक बन सकते हैं।

## सी.एम.एच.ओ ने किया आकस्मिक निरीक्षण

## मंदिर में पुलिसकर्मी लगाने की मांग

नामदेव छीपा समाज के अध्यक्ष भगवानदास भाटी ने जिला पुलिस अधीक्षक को पत्र भेजकर इस मंदिर पर हर सोमवार को सुरक्षा के लिहाज से पुलिसकर्मी को लगाने की मांग की है।
