MUDDAPUR

(Unit : J.K. Cement Ltd) CIN : L17229UP1994PLC017199 Works : P.O. Muddapur - 587 122 Dist. Bagalkot (Karnataka) India

No. JKCW/ENV. /E.C. (MUDDAPUR)/08/23

Date- 18-11-2019

To, The Deputy Director Ministry of Environment & Forest Govt. of India, Indira Paryavaran Bhavan New Delhi- 110 003

Sub: Half Yearly Environmental Clearance Compliance for the period from April-2019 to September-2019 for our Muddapur Limestone Mine

Ref: MoEF Letter No. J-11015/383/2006-1A.II (M) /dtd. 21st January 2008

Dear Sir,

With reference to your above cited environmental clearance letter of our Muddapur Lime stone mine. We are sending here with enclosed point wise compliance for the period from April-2019 to September-2019 for your kind information and record please.

Thanking you

Yours faithfully For Muddapur Lime Stone Mine

R.B.M. Tripathi (Unit Head)

Encl. - Compliance report, Socio-economic development report, six monthly ambient air quality monitoring, fugitive emission, water testing, noise monitoring report, Environmental expenditure report

CC:

- 1- The Addl. Principal Chief Conservator of Forest (C), Ministry of Environment & Forest, Regional Office (South Zone), 4<sup>th</sup> floor, E&F Wings, Kendriya Sadan, 17<sup>th</sup> Main Road, II<sup>nd</sup> Block, Koramangala, Bangalore

EC to Muddapur Limestone Mine (ML area 161.87 ha., 2.0 MTPA of limestone Production) of M/s J.K. Cement Ltd., at village Muddapur, in Mudhol Taluk, Bagalkot-Dist. In Karnataka

### **Specific Condition:**

S.N.	EC Condition	Compliance Status
Α.	Specific Conditions	
i)	Land use pattern of nearby village shall be studied and action plan for abatement and compensation for damage to agriculture land /common property land as applicable due to mining activity shall be submitted to the Regional office of the Ministry within six month. Annual status of implementation of the plan and expenditure thereon shall be reported to the regional office of the ministry.	Complied. It has been studied with EIA which submitted to concerned authority. Mining is being done as per IBM approved modified mining Plan so there is no damage to agriculture land /common property.
ii)	Need based assessment for the nearby villages shall be conducted to study economic measures which can help in upliftment of poor section of society such as development of fodder farm, fruit orchard, vocational training etc. Year wise allocation of funds for implementation of these economic measures shall be reported to the regional office of the ministry within six months.	Complying. The impacts of mining operations are positive. Surrounding village people are sustaining their lively hood in this project. The literacy rate and better living standards enhanced due to increased earning capacity of villagers, better medical facility, and transportation and communication facilities. For socio economic development we have granted funds to the nearby villagers. Copy attached as <b>Annexure No. I.</b>
iii)	A no. of mining zone barrier of 50 m from the canal passing through the lease areas on both sides shall be demarcated and the area shall be afforested with thick species of native vegetation.	Not Applicable
iv)	Recommendations of NEERI, Nagpur, as mentioned in their report on status of Environment –"Action plan " for the State of Karnataka, as be applicable to this project, shall be reported to the Regiona office of the Ministry.	Not Applicable f
v)	Conservation plan for wild life shall be prepared in consultation of with the Chie wild life warden and shall be implemented within six months. Necessary allocation of fund for implementation of the same and the status of implementation of the plan shall be reported to the regional office of	<ul> <li>Not Applicable as there is no forest area</li> <li>f nearby mining lease.</li> <li>f</li> <li>d</li> <li>n</li> <li>f</li> <li>f</li> </ul>

1

	the Ministry.	Complied Soil prosion control measures
vi)	Measures for control and preventions of soll erosion and management of silt shall be prepared and submitted to the Regional	have been mentioned in EIA which is already submitted to MoEF.
	office of the ministry within six months	
vii)	Water quality both for surface as well as ground water in the core zone shall be regularly monitored for contamination due to mining activity and records maintained. In case contamination is observed, measures for control and action taken shall be reported to the State Government as well as the Regional Office of the Ministry	Complying. Water quality is being monitored regularly by approved lab and no contamination has been observed.
viii)	Water bodies shall be developed and utilized to develop Pisciculture. Fishermen cooperative society shall be established with the land losers (if any) and specially the poorer section as members of society. Initial financial assistance either in the form of shared money or other wise and managerial assistance shall be provided so that the members themselves can run the affairs of the society in due course. The project proponent shall arrange marketing tie up so that the society gets fair price of their produce and the profits are equitably shared by the members of the society as regular source of income.	To be complied. At the final closure of mine, mining pit will be developed as water body and will be utilized to develop Pisciculture.
ix)	Action taken report on issues raised during the public hearing shall be submitted to the Ministry and the State Governments within six months.	Complied and it has been submitted.
x)	Occupational health and safety measures for the workers including training or malaria eradication, HIV, health effects or exposure to mineral dust etc. shall be carried out. The company shall engage a ful time doctor who is trained in occupational health surveillance. Records of the health of the workers shall be maintained.	<ul> <li>Complying. Initial and periodical medical examinations of all mine workers are being done on regular basis as required under Mines Rules 1955 and training on various medical aspects are being imparted. Company has engaged fulltime doctor who is trained in Occupational health surveillance. Records are being maintained.</li> </ul>
xi)	Top soil/solid waste(if any ) shall be stacked properly with proper slope and adequat safe guards and shall back filled for reclamation and rehabilitation of the mine area	d Complying. Top soil is being utilized for e plantation and at present no solid waste or is generated. d
xii)	Over burden if any shall be stacked a	at Will be complied. Presently, there are

. .

	earmarked dump site(s) only and shall not	no over burden dump within the lease
	be kept active for long period. The	area. Compliance report is being
	maximum height of the dump shall not be	submitted to the Ministry of
	exceed 30m, each stage shall preferably be	Environment and Forests on six monthly
	of 10m and overall slope of the dump shall	basis.
	not exceeded 28°. The OB dump shall be	
	backfilled. The OB scientifically vegetated	
	with suitable native species to prevent	
	erosion and surface run off. Monitoring and	
	management of rehabilitated areas shall	×
	continue until the vegetation becomes self	
	-sustaining. Compliance status shall be	
	submitted to the Ministry of Environment	
	Forests on six monthly bases.	
xiii)	Garland drains shall be constructed to	Complying. Garland drains have been
1.5	arrest silt and sediment flows from soil, and	made around the pit.
	mineral dumps. The water so collected shall	The collected water in the pit is being
	be utilised for watering the mine areas,	used for green belt development and
	roads, green belt development etc. The	water spraying on haul roads for
	drains shall be regularly de-silted	controlling fugitive dust emission. There
	particularly after monsoon and maintained	is no nallah within the lease area.
	properly. Garland drain of appropriate size,	
	gradient and length shall be designed	
	keeping 50% safety margin over and above	
	peak sudden rain fall (based on 50 years	
	data) and maximum discharge in the area	
	adjoining the mine site. Sump capacity will	
	also provide adequate retention period to	
	allow proper settling of silt materials.	
	Sedimentation pits shall be constructed at	:
	the corners of the garland drains and	
	desilted at regular intervals. Check dams	5
	and gully checks shall be constructed across	5
	nallahs (if any) flowing through the lease	
	area.	
xiv)	Slope of mining bench and ultimate pit limit	Complying. Slope of mining bench and
	shall be as per the mining scheme approved	ultimate pit limit are followed as per the
	by Indian Bureau of mines.	mining plan approved by Indian Bureau
		of Mines.

- 5

xv)	Green Belt Development shall be carried out considering CPCB guidelines including selection of plan species and in consultation with DFO. Herbs, shrubs shall also form a part of a forestation programme besides tree plantation. Plantation shall be raised in 22.0 ha around the ML area, haul roads, OB dump sites etc. the density of the trees shall be not less than 2500 plants per ha. The company shall involve local people with the help of self help group for plantation programme.	Complying. Green Belt Development is being done with native species and in consultation with DFO as committed in Mining plan.
xvi)	Details of the year wise a forestation programmed already under take as well as proposed to be taken of including rehabilitation of mined out areas shall be submitted to the Ministry within six months.	Complied. Details of the year wise a forestation programme is already submitted to MoEF and Plantation is being done as per mining plan.
xvii)	The project authority shall implement suitable conservation measures to augment ground water resource in the areas in consultation with the Regional Director, Central Ground water Board. Status of implementation shall be reported to the regional office of the Ministry from time to time.	Complying. Surface/rain water harvested in pit recharges ground water as water percolates down wards due to inclined strata.
xviii)	Prior permission from the competent authority shall be obtained for extraction of ground water, if any.	Complied.
xix)	Drilling and blasting (if any) shall be conducted by using dust extractors/ wet drilling.	Complying. Wet drilling is being done.
xx)	Vehicles used for transportation of ores and other mining operation shall have valid permission as prescribed under Central Motor Vehicles rules,1989 and its amendments. Transporting of ores shall be done covered with a tarpaulin or other suitable enclosures so that no dust particles /fine matters escape during the course of transportation. No overloading of ores for transportations shall be under taken.	Complying. Vehicles used for transportation of ores and other mining operation have valid permission as prescribed under Central Motor Vehicles Rules,1989 and its amendments. It is ensured that no spillage is occurred during transportation.

- 5

<ul> <li>vii) Village roads through which transportation of ores are being carried out shall be regularly maintained by the company at its own expenses.</li> <li>viii) A final mine closure plan, along with details of corpus funds, shall be submitted to the Ministry of Environments &amp;Forests within six months, in advance of final mine closure for approval.</li> <li>B General Condition:         <ul> <li>i) No change in mining technology and scope of working shall be made without prior approval of Ministry of Environment&amp; Forests.</li> <li>ii) No change in calendar plan including excavation, quantum of mineral, limestone and waste shall be made.</li> <li>iii) Four Ambient Air Quality – monitoring stations halu be established in the core zone as well as in the buffer zone for RPM, SPM, SO2, NOX monitoring. Location of the stations should be decided based on the metrological data, Topographical features and Environmentally and ecologically sensitive targets and frequency of monitoring should be under taken in consultation with the State Pollution Control Board.</li> <li>iv) Data on Ambient Air Quality (RSPM, SPM, SO2, and NOX) should be regularly setsion shall be cate and Environmentally and ecologically sensitive targets and frequency of monitoring should be under taken in consultation with the State Pollution Control Board.</li> <li>iv) Data on Ambient Air Quality (RSPM, SPM, SO2, and NOX) should be regularly setsion shall be controlled regularly. Water spraying arrangements on haul roads, loading and unloadi garrangements on haul roads, loading and unloadi garrangements on haul roads, loading and unloadi points by tankers.</li> </ul> </li></ul>			
xxii)A final mine closure plan, along with details of corpus funds, shall be submitted to the Ministry of Environments &Forests within six months, in advance of final mine closure for approval.Will be followed at the time of n closure.BGeneral Condition:Agreed.i)No change in mining technology and scope of working shall be made without prior approval of Ministry of Environment& Forests.Agreed.ii)No change in calendar plan including excavation, quantum of mineral, limestone and waste shall be established in the core zone as well as in the buffer zone for RPM, SPM, SO2, NOX monitoring. Location of the stations should be decided based on the metrological data, Topographical features and Environmentally and ecologically sensitive targets and frequency of monitoring should be under taken in consultation with the State Pollution Control Board.Being complied and regularly ser concerned departments.iv)Data on Ambient Air Quality (RSPM, SPM, SO2, and NOX) should be regularly submitted to the Ministry including its Regional Office located at Bangalore and the State Pollution Control Boards once in six months.Being complied and regularly ser concerned departments.v)Fugitive dust emissions from all the sources shall be controlled regularly. Water spraying arrangements on haul roads, loading and unloading and at transfer points shall be provided and properly maintained.Being Complied. Water is spraying of the haul roads, loading and points by tankers.	xxi)	Village roads through which transportation of ores are being carried out shall be regularly maintained by the company at its own expenses.	Complying. Village roads, through which transportation of ores are being carried out, is being regularly maintained by the company at its own expenses.
B       General Condition:         i)       No change in mining technology and scope of working shall be made without prior approval of Ministry of Environment& Forests.       Agreed.         ii)       No change in calendar plan including excavation, quantum of mineral, limestone and waste shall be made.       Agreed.         iii)       Four Ambient Air Quality – monitoring station shall be established in the core zone as well as in the buffer zone for RPM, SPM, SO2, NOX monitoring. Location of the stations should be decided based on the metrological data, Topographical features and Environmentally and ecologically sensitive targets and frequency of monitoring should be under taken in consultation with the State Pollution Control Board.       Being complied and regularly ser concerned departments.         iv)       Data on Ambient Air Quality (RSPM, SPM, SO2, and NOX) should be regularly submitted to the Ministry including its Regional Office located at Bangalore and the State Pollution Control Board/Central Pollution Control Boards once in six months.       Being Complied. Water is spraying of the haul roads, loading and unloading and at transfer points shall be provided and properly maintained.	xxii)	A final mine closure plan, along with details of corpus funds, shall be submitted to the Ministry of Environments &Forests within six months, in advance of final mine closure for approval.	Will be followed at the time of mine closure.
<ul> <li>i) No change in mining technology and scope of working shall be made without prior approval of Ministry of Environment&amp; Forests.</li> <li>ii) No change in calendar plan including excavation, quantum of mineral, limestone and waste shall be made.</li> <li>iii) Four Ambient Air Quality – monitoring station shall be established in the core zone as well as in the buffer zone for RPM, SPM, SO2, NOX monitoring. 	v)	Fugitive dust emissions from all the sources shall be controlled regularly. Water spraying arrangements on haul roads, loading and unloading and at transfer points shall be provided and properly maintained.	<ul> <li>Being Complied. Water is spraying on</li> <li>the haul roads, loading and unloading</li> <li>points by tankers.</li> </ul>

vi)	Measures shall be taken for control of noise level below 85 dBA in the work environments. Workers engaged in operations of HEMM, etc shall be provided with ear plugs/ muffs.	Being complied, earplugs/ muffs have been provided.
Vii)	Industrial waste water (Works shop and waste water from the mine should be properly collected , treated so as to conform to the standards prescribed under GSR 422 (E) dated 19th May , 1993 and 31st December 1993 or as amended from time to time. Oil and Grease trap shall be instilled before discharge of effluents.	Not applicable, there is no workshop in mines area and no waste water discharged from mines.
viii)	Personnel working in dusty areas shall be provided with protective respiratory devices and they shall also be imparted adequate training and information of Safety and Health aspects.	Complying. Personnel working in dusty areas have been provided with protective respiratory devices and imparted adequate training and information of Safety and Health aspects.
ix)	A separate Environmental Management cell with suitable qualified personnel shall be set up the control of Senior Executive, who will be report directly to the head of the organization.	Complied. A separate Environmental Management cell with suitable qualified personnel has been set up the control of Senior Executive, who is report directly to the head of the organization.
x)	The project authorities shall informed to the Regional Office of the Ministry located at Bangalore regarding date of financial closures and final approval of the project by the concern authorities and the date of start of land development work.	Complied.
xi)	The funds earmarked for Environmental Protection measures shall be kept in separate account and shall not be diverted for other purpose. Year wise expenditure shall be reported to the Ministry and its Regional office located at Bangalore.	Complied.
xii)	The project authorities shall informed to the Regional Office of the Ministry located at Bangalore regarding date of financial closures and final approval of the project by the concern authorities and the date of start of land development work.	Complied.

xiii)	The Regional Office of the Ministry, Bangalore shall monitor compliance of the stipulated conditions. The project authorities shall extend full cooperation to the officer(s) of the Regional office by furnishing the requisite data/ information /monitoring reports.	Agreed.
xiv)	A copy of clearance letter will be marked to concerned panchayat /local NGO, if any from whom suggestion /representation has been received while processing the proposal.	Complied.
xv)	State Pollution Control Board shall display a copy of the clearance letter at the Regional Office, District Industry Centre and collector's office /Tehsildar's office for 30 days.	Agreed
xvi)	The project authorities shall advertise at least in two local Newspapers widely circulated , one of which shall be in the vernacular languages of the localities concern within 7days of issue of the clearance letter informing that the project has been accorded Environmental clearance and a copy of the clearance letter is available with the State Pollution Control Board and also at web site of the Ministry of the Environment & Forests at http: www.envfor.nic.in and a copy of the same shall be forwarded to the Regional Office of the Ministry located at Bangalore.	Complied.

We hope, you will find our reply in order.

Thanks with regards,

Yours faithfully For Muddapur Lime Stone Mine
